Wye Valley Villages

1. Vision & principles

2. Road safety overview and next steps

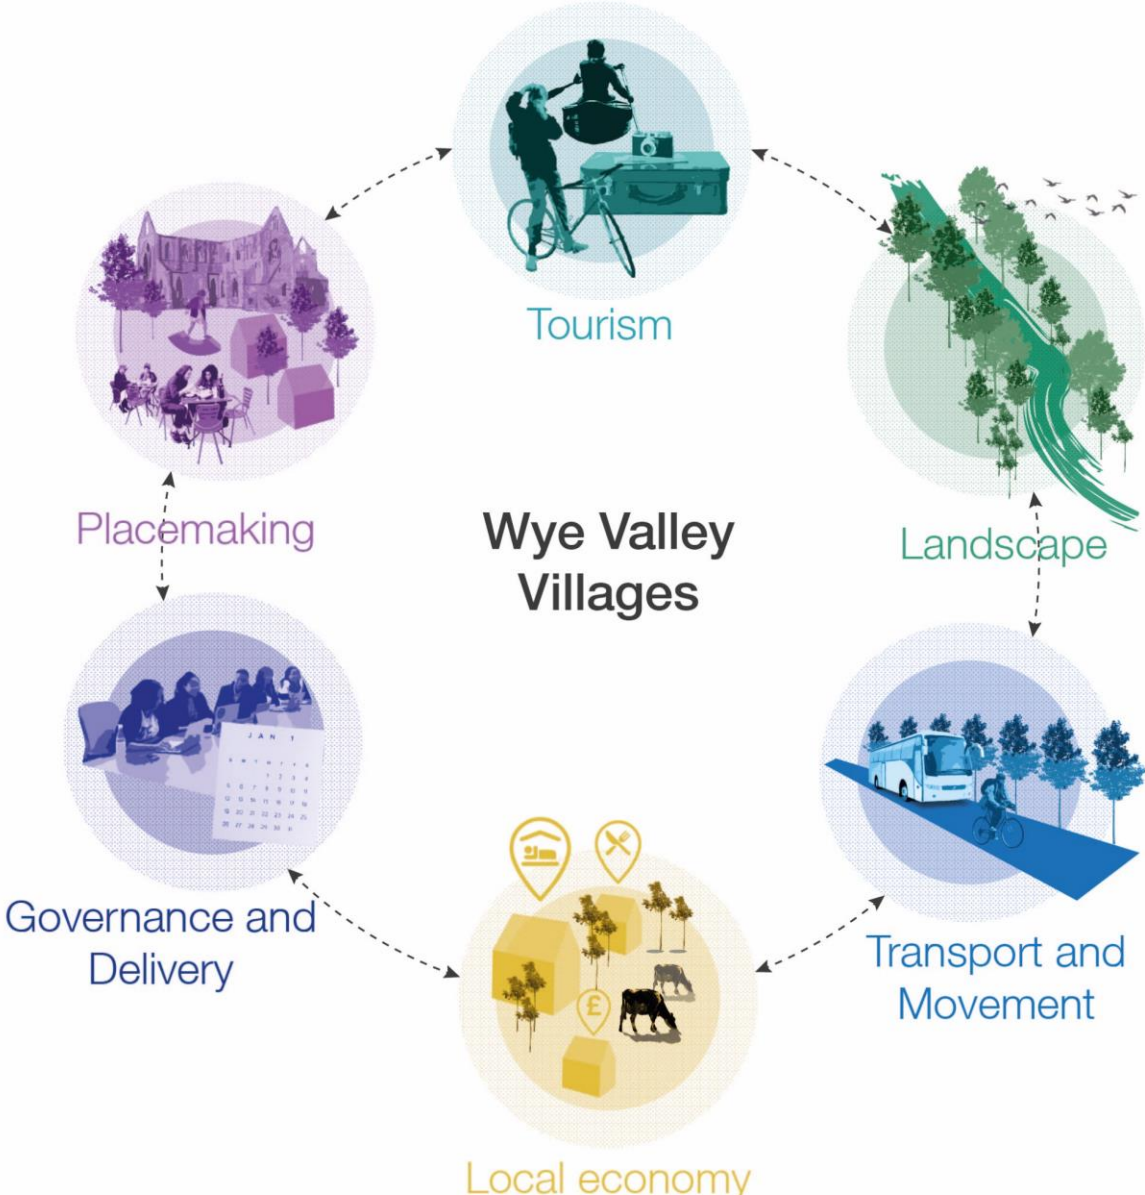

To respond to the unprecedented challenges of the 21st Century we need a new, sustainable relationship with our environment.

Our vision is to preserve, enhance and evolve this outstanding landscape and its communities.

The plan imagines change over a 100 years. This will deliver for the needs and wants of today without losing sight of the much longer timescale of nature and future generations.

Six Pillars

Tourism

- **Integrated, sustainable and diverse tourism economy,**
- **Joint development organisation**
- **Strong offer and position in wider Welsh tourism offer (Brecon Beacons, Coast, etc)**

Preserve

- **Existing unique landscape, heritage, local language and culture, local producers, local, an inclusive community, agriculture.**

Evolve

Enhance

- **Perception of destination**
- **Ethnographic awareness & storytelling (Welshness),**
- **Year-round and varied experience,**
- **Legibility of landscape,**
- **Leisure mobility & active travel options.**

Vision

Tourism & Regional Development

Existing + Potential → Future

Define

Strengthen

Diversify

Integrate

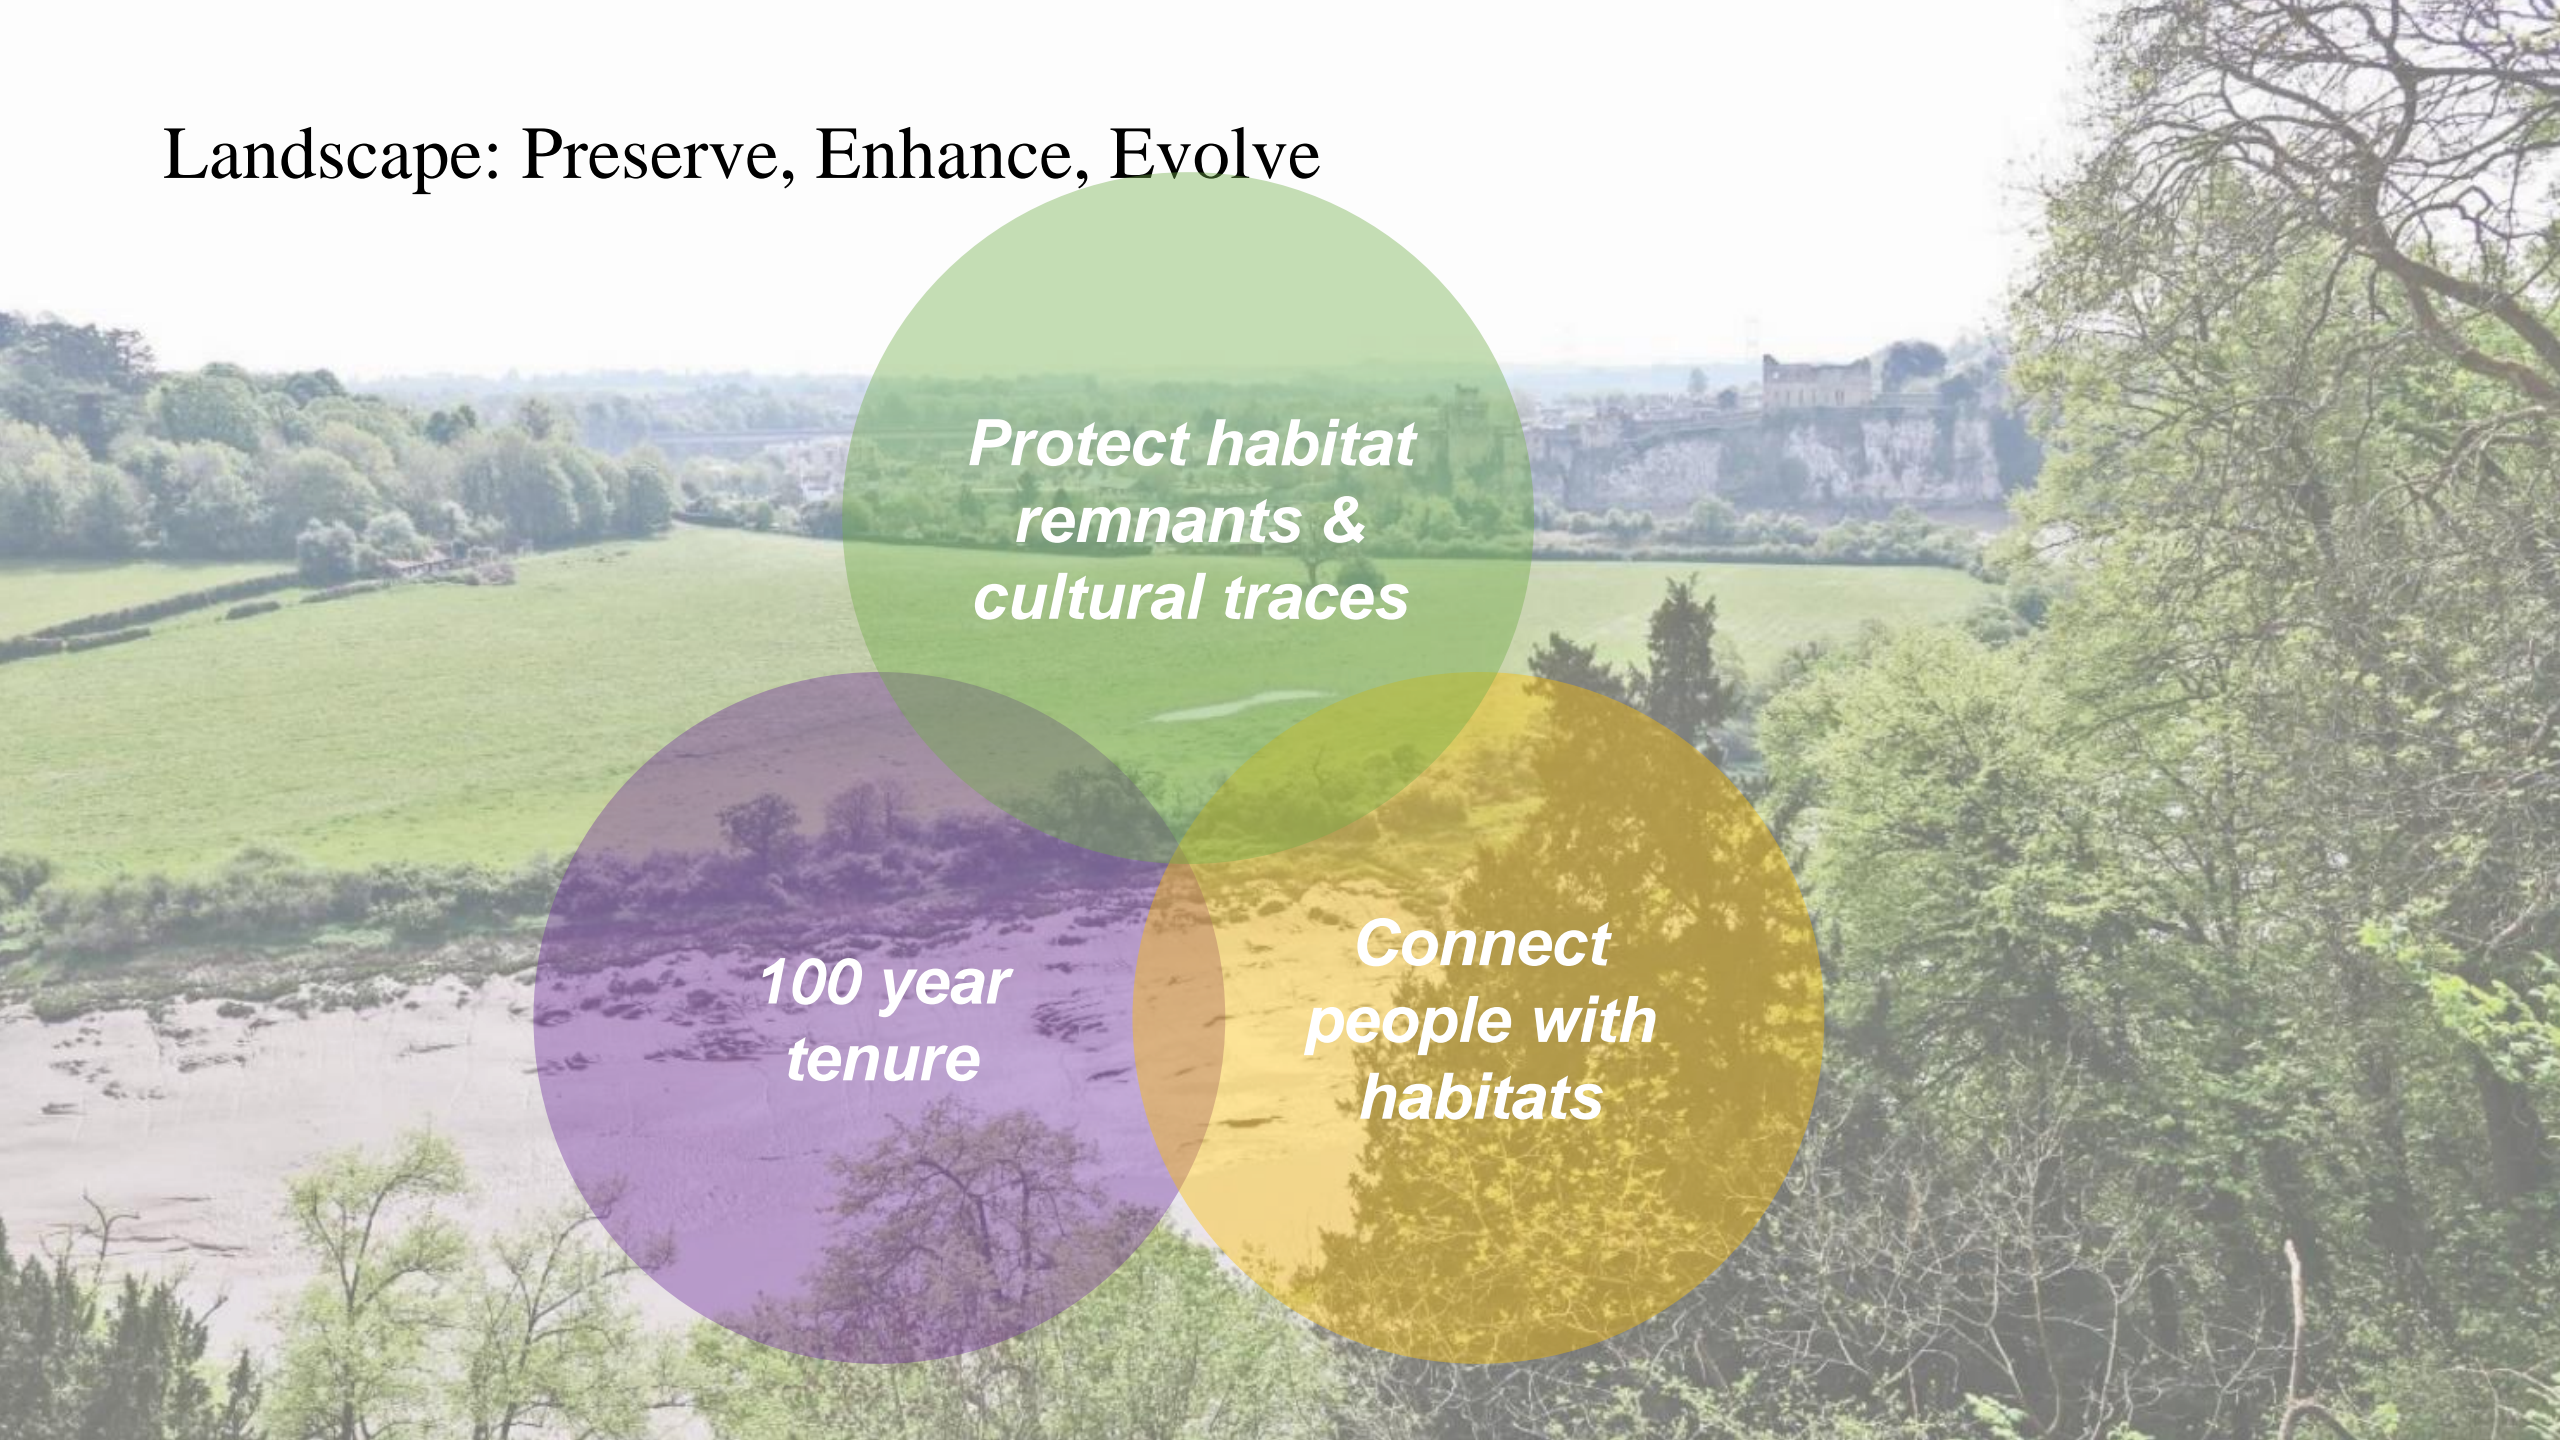

Package + Structure

Landscape: Preserve, Enhance, Evolve

*Protect habitat
remnants &
cultural traces*

*100 year
tenure*

*Connect
people with
habitats*

Transport and Movement

- **Active travel routes tell a story**
- **Real-time travel and tourism information**
- **Demand responsive transport**
- **Mobility hubs**

Evolve

Preserve

Enhance

- **High quality network of permissive paths**
- **Positive attitudes towards active travel**
- **Existing public and community transport**
- **Street design and character**
- **Car parking for EVs**
- **Access to public transport**
- **Connectivity between active travel routes**
- **Improve road safety**

A scenic view of a valley with a river, a large stone building, and forested hills, framed by trees in the foreground. The text is overlaid on the image.

Enabling digitally inclusive and connected communities – recognising the relevance of digital transformation to all ages, supporting innovation in rural service provision and its role in promotion of a distinctive Wye Valley businesses community.

Local Economy

An economy which respects its unrivalled landscape whilst ensuring its resilience through digital connectivity and exploiting new technologies.

An economy where young people don't leave because they have the choice of locally based quality jobs or support to set up their own opportunities.

Preserve

A rural economy that capitalises on proximity to major growth centres in Wales & England

A highly integrated networked of places where local businesses support each other to be the best collectively.

An economy that seeks to be a testbed for rural service transformation

Evolve

Enhance

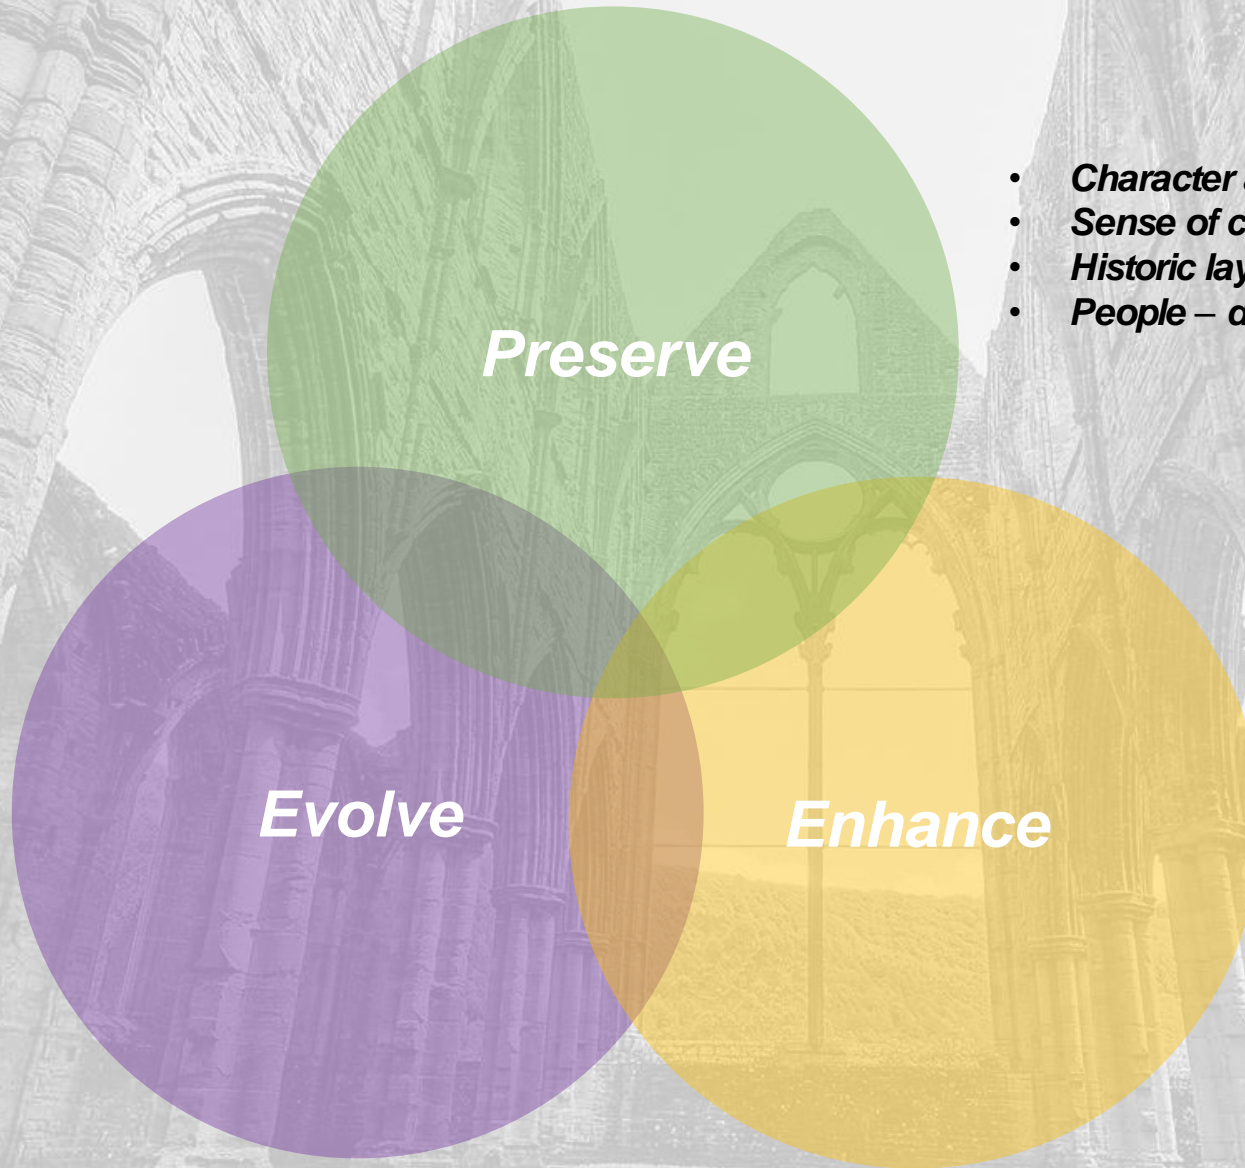

A business support ecosystem that encourages local entrepreneurial spirit.

Promoted as a focus for green inward investment, particularly around land-based economy and food and drink.

Placemaking

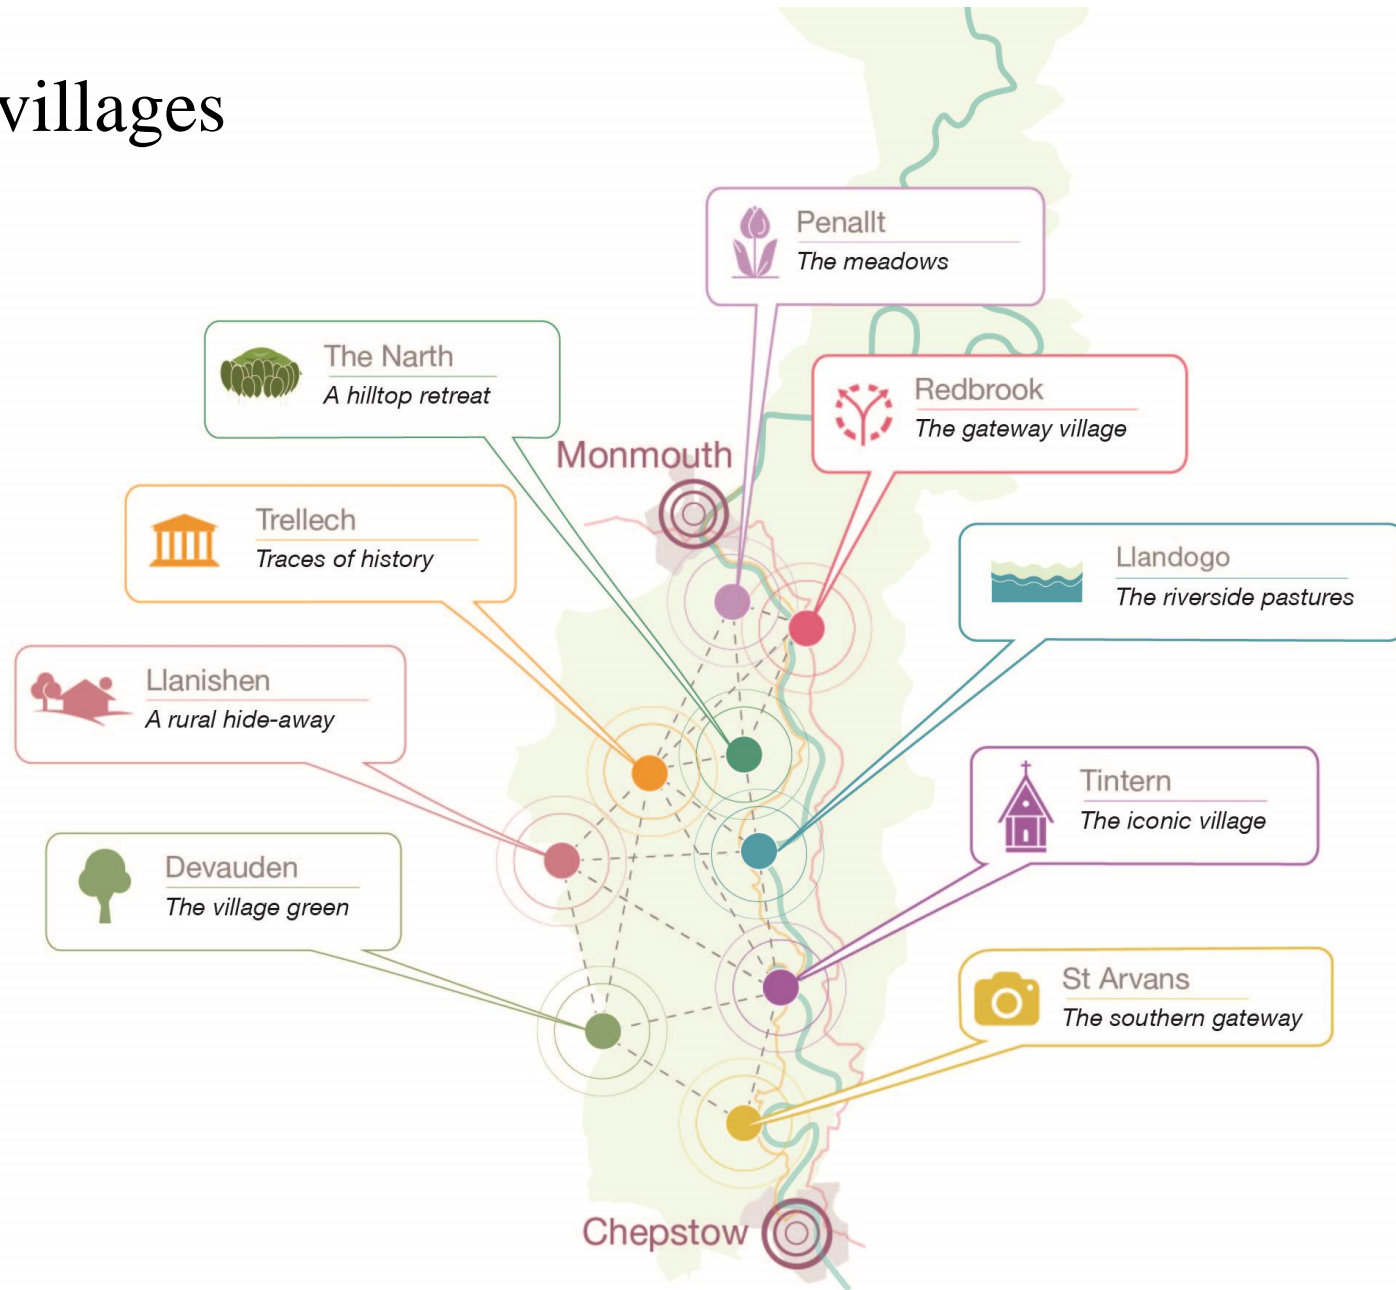

- *New perspective on the network of villages and towns.*
- *Community infrastructure to meet C21st needs.*
- *Streets and spaces to create places for people not cars.*
- *Affordable homes for the next generation.*

- *Character and form of the landscape and villages.*
- *Sense of community and way of life.*
- *Historic layers – natural and man made.*
- *People – doers and makers*

- *Buildings and structures to reduce carbon.*
- *Legibility - Signage and wayfinding/stories, myths and history*
- *Character – street design/safety*
- *Opportunities for community engagement.*

Tapestry of villages

Governance and delivery

Preserve

- **Community participation.**
- **Proactive Entrepreneurs.**
- **Public sector collaboration.**
- **Cross agency working.**
- **Funding experience.**

Evolve

- **New Strategy and Action Plan Office for the Wye Valley Villages.**
- **Single representation and organisation of the Wye Valley**
- **Public and Private partnerships**

Enhance

- **Broaden community participation – hard to reach groups. Maximise potential.**
- **Entrepreneurial opportunities.**
- **Partnership working – beyond the current structure (PHW, Universities etc).**
- **Basis for funding – the plan and narrative.**
- **Professionalisation of tourism sector**

Strategic Plan

GOVERNANCE

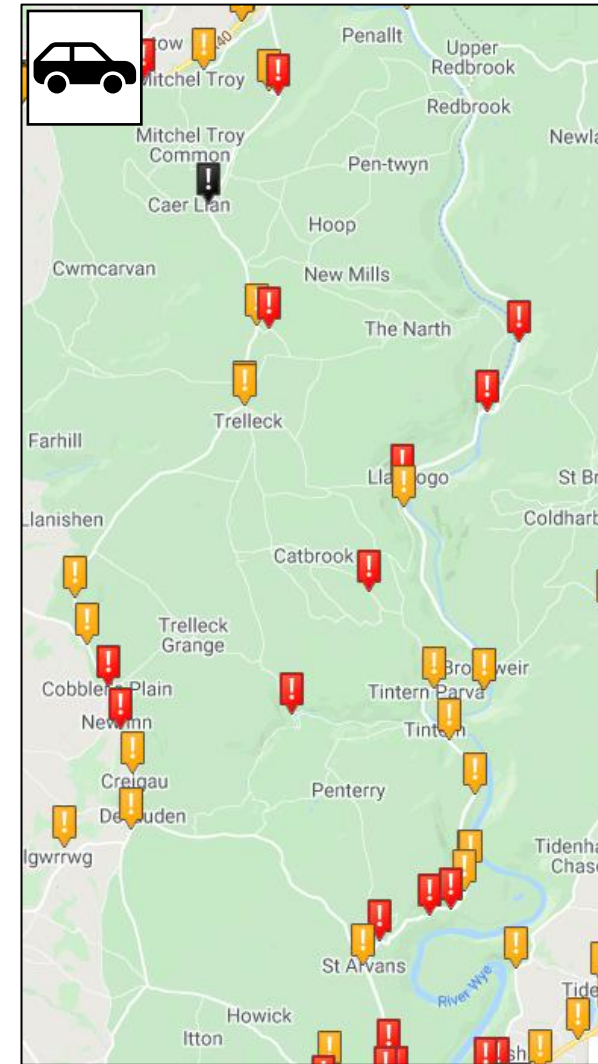

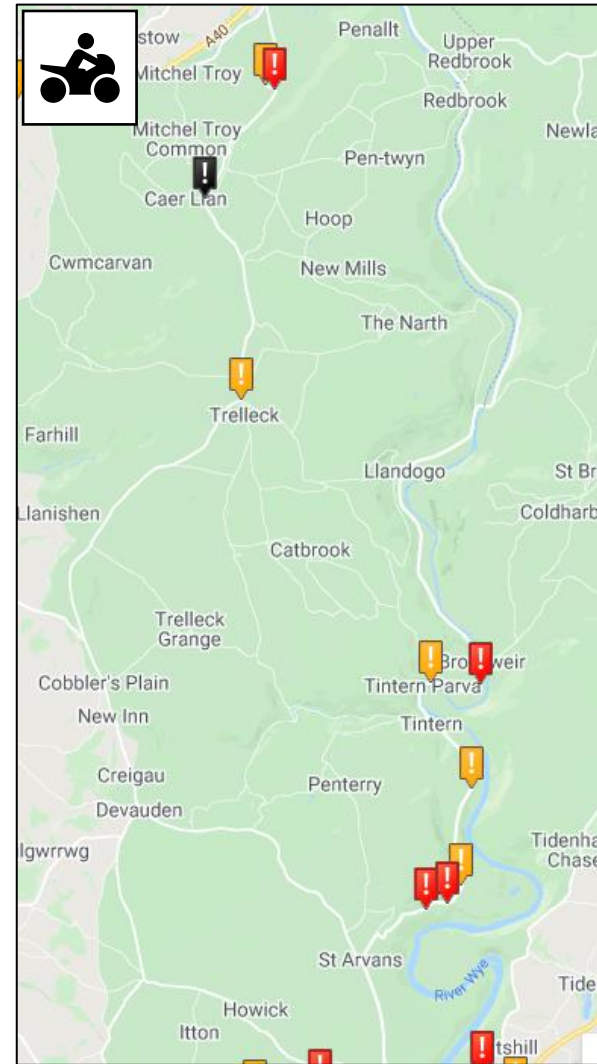

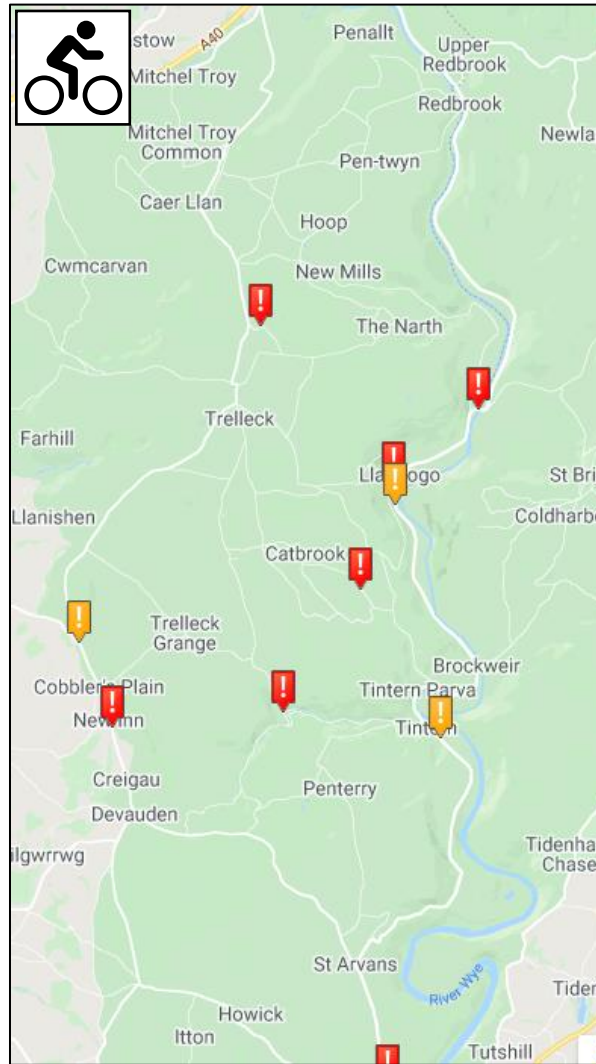

Action Plan

Road safety

What does the data tell us - collisions

What does the data tell us – travel choice

Commuting

- Underground, metro, light rail, tram
- Bus, minibus or coach
- Motorcycle, scooter or moped
- Passenger in a car or van
- On foot
- Train
- Taxi
- Driving a car or van
- Bicycle
- Other method of travel to work

Tourism

- Private car or van
- On foot
- Train
- Private bus or coach
- Campervan or tourer
- Hired car or van
- Public bus or coach
- Bike
- Motorbike
- Don't know \ can't remember

Cumbria Tourism Visitor Survey: between 2012 and 2015 the percentage of visitors stating car as their main mode of travel while in the Lake District has decreased from 73% to 58%

How do we manage Road Safety?

- Is it just speed cameras and speed bumps?
- Key themes:
 - Reduce traffic
 - Reduce speeds
 - Provide appropriate infrastructure

Reducing traffic speeds and introducing appropriate infrastructure

- Introducing traffic calming sensitively as if it were part of the original street scene
- Gateway treatments provide transition of environment for drivers
- Narrowing of carriageway and removing road markings to reduce speeds
- Defining the centre of the village and meeting places through highway layout, materials, parking availability and wider streetscape to ensure sense of place is maintained
- Provide safe crossings for all users, including children, the elderly, the disabled and those with pushchairs

1. Removing road markings in Buriton, Hampshire to highlight key spaces and reduce traffic speeds
2. Junction design creates an entrance place to Dunston village, Somerset
3. Simple paving solution in West Meon, Hampshire to create a low-speed environment

Reducing traffic through villages

- Go-Lakes Travel initiative reduced visitor vehicle miles by 14.5%
- Moorlands Connect (Staffordshire) DRT increased by 305 trip a week in the first year of operation
- Consolidating HGV movements through freight coordination, e.g. coordination achieved a 70% reduction in trips to Broadmead, Bristol.
- Active Travel Wales has put responsibility on LAs to prepare INM
- Signage strategy to redistribute traffic onto trunk roads, particularly HGV movements
- Future trends in mobility

Trends and Opportunities

- Transport schemes aren't just for transport
- Sustainable Transport Hierarchy
- Post-Covid travel behaviour
- Electric Vehicles
- Smart logistics
- Inclusive active travel
- Mobility as a Service and Autonomous Vehicles
